Participate in roundtable sessions throughout the day:

Introduction to LEAN CONCEPTS

For organizations considering or beginning a Lean journey.

- Learn what Lean is—Features, Advantages and Benefits
- Understand what wastes are and how they can be eliminated
- Understand what a Lean journey might look like
- Learn about the various tools (5S, VSM, Cell Flow, etc.)

A3 Problem Solving: The Power of Practical Problem Solving

Grasp the power of the A3 problem solving process!

Do you need a practical approach to tackle persistent questions?

- A lot of planning but very little action?
- Action but no follow up?
- Fixing a problem only to have it appear again?
- A lack of a standard approach to problem solving?
- Not enough people capable of problem solving?
- Too much focus on Lean tools and not on actual problem solving?

Training Within Industry (TWI)

Building skills for people responsible for the work of others

Learn how to develop effective frontline supervisors and production staff in a Lean or traditional environment.

Participate in a demonstration of TWI, led by a certified TWI trainer.

Leading Bold Change

Accelerate specific change objectives in any organization!

Learn how the newest 1-Source training program, Leading Bold Change, brings to life the world-renowned principles in John Kotter's book "Leading Change" and the award-winning creativity of the international bestseller "Our Iceberg is Melting".

workplacelean®

For organizations at all stages of a Lean journey

- Learn how to implement Lean concepts into administrative, information services & office environments
- Learn about the tools used in workplacelean®

Implementation Practices - Practitioner's Roundtable

Share best practices with other Lean practitioners

Roundtable features implementation discussions from past and present Professional Lean Practitioner Certification candidates.

Talk with people who have implemented Lean and learn from their successes and challenges
